Mason County's Oakview MEDICAL CARE FACILITY

ADMISSIONS APPLICATION

INSTRUCTIONS & INFORMATION

General

Oakview's receipt of this application does not guarantee placement, however, it confirms that the applicant's information has been received for admission review and an Oakview staff member will be in touch with you regarding our waiting list and admission procedure. Thank you in advance for your interest, input and cooperation.

Pre-Admission Screening

A pre-admission screening is required by Federal OBRA Regulations for individuals seeking residents in a nursing facility who have a serious mental illness or a developmental disability. The applicant's primary care physician will need to assist with completing the necessary pre-admission screening paperwork (commonly referred to as PASARR or Forms 3877 and 3878). Time delays are to be expected if it is determined that a full Level II Assessment is needed.

Chest X-Rays

A chest x-ray must only be completed 90 days or less prior to the date of admission to a skilled nursing facility if the resident is a known positive reactor for tuberculosis. If an x-ray is needed and this has not already been done, you will need to contact your physician regarding this matter.

Non-Smoking Facility & Campus

Oakview Medical Care Facility, including the Sutter Living Center, is a non-smoking facility & campus.

Application Submission

Please complete this application and return to Oakview.
